System update

Disclaimer

The user understands and agrees that iFLYTEK shall not be responsible for any loss of profit, revenue and the developer's losses in the event of any of the followings:
1. force majeure situations
2. hacker attacks, computer virus, intrusion or attacks
3. equipment, software or systems been damaged, paralysed or are not functioning properly
4. technical adjustments in the telecommunications sector
5. temporary closure due to government control
6. losses not caused by the fault of iFLYTEK
7. It is the joint responsibility of iFLYTEK and users to maintain the security and proper use of the software. iFLYTEK has implemented reasonable and feasible measures necessary to protect the security of users' terminal information and data in accordance with industry standards. However, users need to acknowledge and agree that iFLYTEK cannot provide any guarantee of data security.
8. iFLYTEK audits the user's recordings in accordance with this agreement or other service agreements and standards in the Software. The audit does not guarantee whether the recording itself or other content in it violates laws and regulations or infringes the rights of third parties. If the user's recording itself or other content in it violates laws and regulations or infringes the rights of third parties, the user shall be solely responsible for the consequences, and compensated for any damage caused to iFLYTEK as a result.
9. The software may use third-party software or technology (including the open source code and public domain code that may be used by the software, the "third party software"). The third party software authorized if the software uses software or technology from a third party, iFLYTEK will display the relevant agreements and documents, which may be attached to this Agreement, packaged in specific folders or installation directories, or in other ways, in compliance with relevant regulations or agreements. They may be displayed in the form of "Software License Agreement", "Open Source Software Notice" or in other ways otherwise. The above-mentioned agreements and documents presented in various forms shall form an integral part of this agreement and have the same legal effect as this agreement. Users shall comply with these agreements. Failure to do so, iFLYTEK shall be entitled may file a lawsuit, impose a fine or take other sanctions against the user to make him or her bear the legal liability independently. If necessary, iFLYTEK should provide assistance
10. Recorder service policy, subject to official channels

Cautions

1. The operating system only supports official upgrades, please refer to the latest features. Users are responsible for any security risks and losses caused by brushing the system, such as virus intrusion, malicious risk control, information theft, automatic SMS sending, location, etc.)
2. There is risk of explosion if the product is replaced with the wrong type of battery
3. Please ensure that used batteries are disposed of in accordance with the relevant laws and regulations
4. The recorder is an offline product, the recordings and transcribed texts recorded by the user during use are stored in the hardware device by default, and the user is responsible for managing them. iFLYTEK will not collect or process any personal information of users stored in the device

Waste Recycling Tips

In order to better protect our planet, when the user no longer needs to use the product and the service life of product ends, please comply with the relevant national laws and regulations on the recycling of waste electronic products and hand them over to local manufacturers with national certified recycling qualifications for recycling.

Safety Information

Before using and operating this device, read the following precautions to ensure an optimal device performance and avoid dangerous use or unauthorized modification.

- When charging, an adapter should be plugged into a socket nearby and easily accessible. Use approved power adapters and chargers.
- Keep this device and its accessories that may contain small components out of the reach of children. Otherwise, children may damage this device and its accessories by mistake, or swallow the small components, which may cause choking.
- Avoid using the device in dusty, damp, or dirty environments, or near sources of magnetic interference.
- Keep the battery away from fire, excessive heat, and direct sunlight. Do not place it on or in heating devices. Do not disassemble, modify, throw, or squeeze it. Do not place it in a microwave oven or pressure cooker, or expose it to external force or pressure, as this may cause it to leak, overheat, catch fire, or even explode. Do not disassemble the battery or replace yourself — you may damage the battery, which could cause overheating, fire, and injuries.
- Avoid disassembling or modifying your device and its accessories. Unauthorized disassembly and modifications may result in voiding the factory warranty.
