Core Scenarios

Scenario I: Voice Translation – Quick Chats, Smooth Interaction

Scenario II: Meeting Translation – Professional and Efficient Business Talks

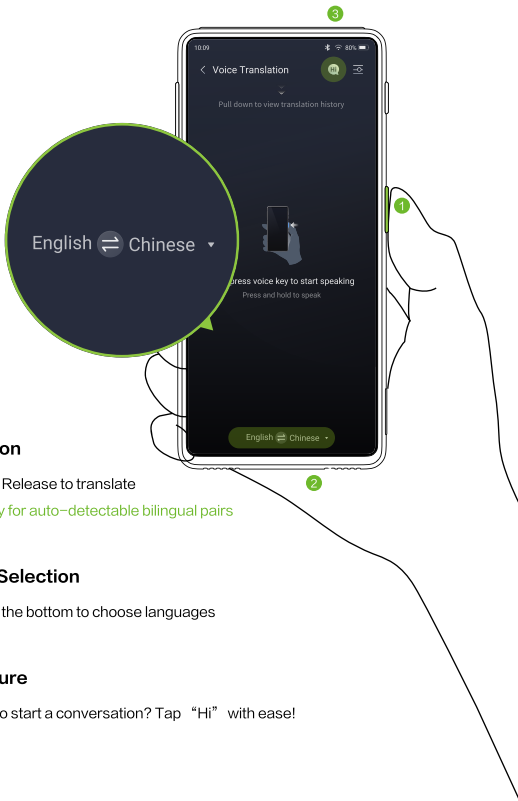

Scenario III: Call Translation – Speak & Translate as You Go

Scenario I: Voice Translation – Quick Chats, Smooth Interaction

Ideal for short chats like asking directions, ordering food, or hailing a cab.

1 Voice Button

Hold to speak. Release to translate

Supported only for auto-detectable bilingual pairs

2 Language Selection

Swipe up from the bottom to choose languages

3 “Hi” Feature

Not sure how to start a conversation? Tap “Hi” with ease!

Voice Translation: Listen & View

Enter Voice Translation. Open guest screen and press Voice Button to speak. Release for the main screen to show original + translation. Guest screen shows translation + voice playback.

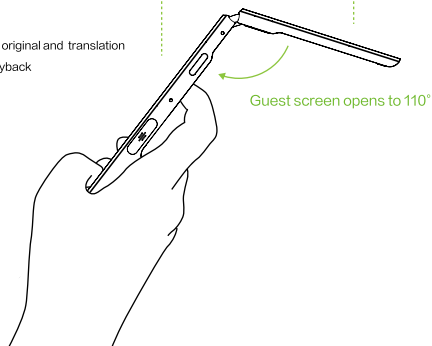

Main Screen

- Shows both the original and translation
- Translation Playback

Guest Screen

Shows the other party's language

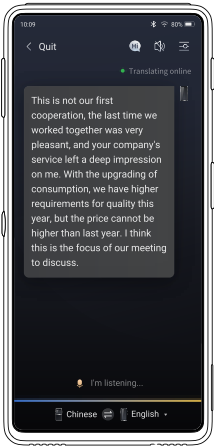

Scenario II: Meeting Translation – Professional and Efficient Business Talks

Ideal for meetings & extended talks.

Enter Meeting Translation: Unfold guest screen, place device on the table, tap "Start".
Support auto dual-language detection, one screen per participant, no tapping needed.

- Main screen speaks English: Main screen displays recognized English, guest screen shows translated target language.
- Guest screen speaks target language: Guest screen displays recognized target language, main screen shows translated English.

You can also reverse the screen roles by switching language directions.

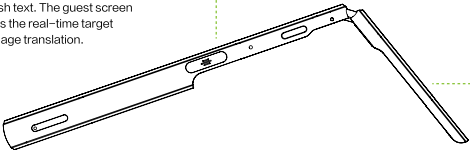

Main Screen

If English is detected: The main screen displays the recognized English text. The guest screen shows the real-time target language translation.

Guest Screen

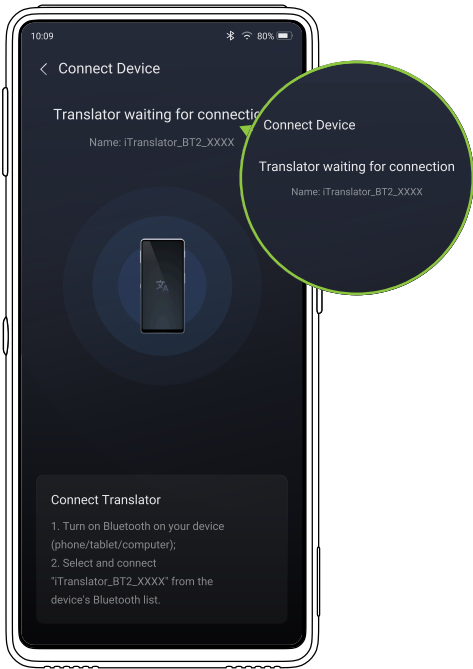

If a target language is detected: The guest screen displays the recognized target text. The main screen shows the real-time English translation.

Scenario III: Call Translation – Compatible with Multiple Devices

Ideal for remote scenes such as voice calls or conferences. During a call, both parties can hear the real-time spoken translations.

- Connect the translator to the internet.
- On your phone, tablet, or computer, enable Bluetooth and connect to the translator. (Bluetooth name: iTranslator_BT2_XXXX)
- Select languages and tap “Start” to begin the call with live translation.

Scenario IV: Living Translation

Ideal for attending in-person meetings, lectures, etc.

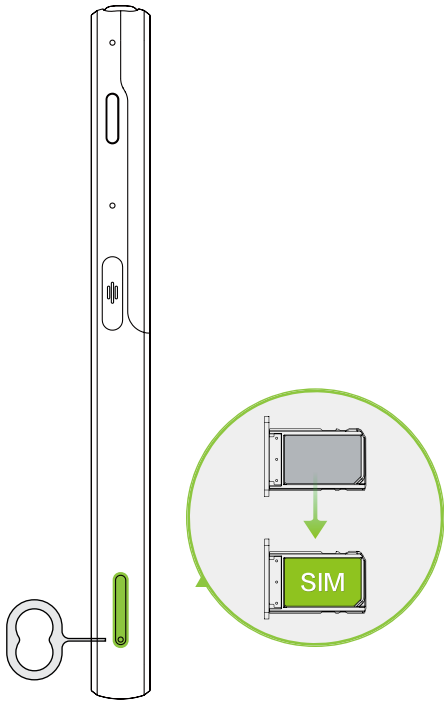

Enter Living Translation and tap “Start” . The translator will begin real-time recording, transcription, and translation. Bilingual subtitles are displayed.

You can also wear earbuds to listen to the translation.

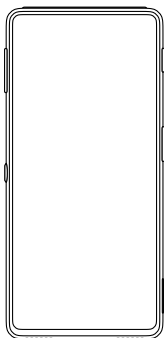

SIM Card Installation

Insert a nano SIM card to enable mobile data connectivity.

住所: 東京都港区芝公園1丁目7番6号KDX浜松町プレイス7階

Keep the volume of the translation device at a comfortable level and avoid using it at too high a level for too long. Continuous exposure to high sound levels may cause temporary or permanent hearing damage.

Safety Information

Before using the product, please read all the safety information below:

1. Do not use this product outdoors during thunderstorms.
2. The product packaging contains small objects. Keep it out of reach of children and do not allow children to use it alone.
3. Do not use the product while driving to avoid distractions that could lead to traffic accidents.
4. Keep the translator in a dry, cool environment and do not clean it with organic solvents or liquids.
5. Use the product in an ambient temperature range of 0°C to 40°C. For storage, ensure the ambient temperature is between -10°C and 50°C. Operating or storing the device outside these ranges may cause performance issues or equipment failure.
6. Do not dispose of the battery in fire or a hot oven, or mechanically crush or cut it, as this may cause an explosion. Avoid leaving the battery in extremely high-temperature environments or subjecting it to extremely low air pressure, which could result in an explosion or the leakage of flammable liquids or gases.
7. Do not rely solely on the translator as an emergency communication tool, such as for medical care. The translation provided is for reference only and does not constitute any form of guarantee.
8. Any radio-transmitting device (including this product) may interfere with medical devices that are not properly protected. Please consult medical personnel or medical device manufacturers to ensure compliance with relevant regulations regarding the use of electronic devices. Caution is advised when using the product with devices such as pacemakers or hearing aids, in accordance with the medical equipment instructions.
9. The manufacturer is responsible only for official system software and updates. Any non-official third-party systems may pose security risks.

Customer Support Contact Information

If you encounter any issues with the product, please feel free to reach out to our customer support team via the following email addresses.

United Arab Emirates: service@synlantech.com

Japan: c-support@iflytek.co.jp

Our team is ready to assist you with any product-related inquiries.
